

TURBO[®] COMPETITION 2012

La resistencia tiene un nombre:
Resistance has a name:

duratech®

ANTICHLORINE

Features

Excellent UV protection
Exceptional breathability
Shape retention
Pilling resistant

Perfect fit - Two-way stretch

It also adapts perfectly, making movements even more comfortable, and it is fast drying.

Chlorine proof

Thanks to its high resistance to chlorine, 20 times greater than the Lycra found in conventional swimwear, this fabric is ideal for training and everyday use.

Composition

53% Polyester
47% Polybutylene terephthalate

Características

Excelente protección UV
Transpirabilidad excepcional
Resistente al Pilling
Conserva su forma

Perfect fit - Elástico

Se adapta al cuerpo a la perfección, haciendo los movimientos aún más cómodos, y se seca rápidamente.

Resistente al cloro

Gracias a su alta resistencia al cloro, 20 veces mayor que en los bañadores de lycra convencional, esta tela es ideal para los entrenamientos y el uso diario.

LÍNEA PROFESIONAL

This swimwear has been designed specially to put up minimum resistance to water.

The special structure of its fabric ensures that it is faster -even faster than human skin- and, therefore, glides better through the water, both when diving and swimming.

In addition, the high level of elasticity achieved in the fabric's two directions enables it to adapt perfectly to the human body.

Estas prendas han sido especialmente diseñadas para ofrecer una mínima resistencia al agua.

La estructura especial de estos tejidos asegura una mayor rapidez, incluso que la piel humana y, por tanto, se desliza mejor en el agua.

Además, el alto nivel de elasticidad conseguido en las dos direcciones de la tela permite una perfecta adaptación al cuerpo.
